

Diagnosing testosterone deficiency (TD) in men is not always a straightforward process.

However, testosterone deficiency guidelines from premier medical associations such as the American Urological Association (AUA), the Canadian Urological Association (CUA), and the Endocrine Society can help Advanced Practice Providers (APPs) and other health care professionals provide the highest standard of care for all patients. Read up on essential considerations for diagnosing TD in the latest SMSNA news item!

If you missed the first SMSNA webinar for APPs on May 20, don't worry! Everyone who registers now (or registered previously) will receive on-demand access to the first webinar. Also, all APPs who register now will receive free SMSNA membership until December 31, 2021!

Register Now!

With your registration, you'll get:

- Access to APP webinar series (including on-demand access to first webinar)
- Free SMSNA membership until December 31, 2021
- Access to closed group on our SMSNA Discussion Forum
- Reduced registration to the SMSNA Annual Fall Scientific Meeting
- And more...

Upcoming Webinars:

- **Becoming an APP Sexual Health Superstar:** Thursday, June 24, 2021 – 8:00 pm EST
- **Exploring Partner Health:** Thursday, September 30, 2021 – 8:00 pm EST

Physician Assistants, Allied Health Professionals, and Advanced Practice Nurses (including Advanced Practice Registered Nurses, Nurse Practitioners, and Nurse Specialists) are encouraged to register.

Please share with your colleagues and join us for this special event!
